

Minutes of meeting

Date: 09/11/2023

Group members attending: Nazim, Claudiu, Danila

Topics to discuss: Win Forms UI design

- Presentation started with the emphasis of clients desire for a "purple" theme.
- The Win Forms application UI has been completed and presented, with a focus on the login screen, announcements, employee tabs including shifts, canceled shifts, and vacations.
- Announcements editing and adding functionality was demonstrated.
- For now, only the UI has been developed, and backend merge remains to be done.
- There are two types of accounts, Manager and Administration, with different levels of responsibility.
- The WinForms app's UI has been discussed in line with client requirements.
- The main focus for this iteration is design and documentation, particularly for the new UI, URS and Project Plan.
- After UI design, the plan is to create logs for stock and implement new tasks from the client while updating documentation such as URS and Project Plan.
- Request to update documentation was made again by the tutor, including use cases and Project Plan.
- The team will plan the next three weeks.
- Peer review feedback will be discussed, filled in and submitted for Friday 10/11/2023.
- Two versions of the project plan are needed.
- Individual projects were briefly discussed.

In summary, we talked about the progress and plans for the project, emphasizing UI development, backend implementation, and documentation updates, while also mentioning a meeting with the client and the importance of tutor requirements.
