Minutes of meeting

Date: 21/09/2023

Group Members attending: Nazim, Claudiu, Angel, Danila

Topics to discuss: Wireframes

Today's agenda was to talk about the wireframes we did the day before. Here are the following key points we got out of the conversation with our tutor:

1. Danila explained wireframes and preparations, including:

   - Log in

   - Registration

   - Main page

   - Forgot password

   - Desktop for employees and admins

   - Account page contents

   - Side menu

   - Stats for admins

   - Stock for employees

2. Teacher asked about products restocking, leading to:

   - Realization of the need for adding stock implementation

   - Restock details (name, quantity, price, etc.)

   - Clarification on restocking

3. Discussion on the purpose of physical and online stores if applicable.

   - Team concluded that it has to be discussed with the client.

4. Mention of a shift form and sick button in the form.

5. Stats for admin, including employee information and stock graphs.

6. Admin's ability to assign shifts to employees.

7. Feedback from the teacher:

    - Wireframes in Figma confirmed.

    - Absence of UML at this point.

    - Next steps discussed:

        o Putting wireframes in Figma.

        o Creating a desktop layout.

        o Building UML and logic.

    - Two-week timeline emphasized.

8. Discussion about the project presentation in week 6.

9. Teacher's requirement for a presentation in front of the class with a working prototype, not a Figma prototype.

10. Claudiu having a question about the grid for his individual assignment.

    - Danila gave his way of work.

    - Angel offering guidance on working with grids.

11. Mention of using cookies for the project starting from now (not in Week 11) if needed.
