Minutes of meeting

Date: 11/12/2023

Group members attended: Danila, Nazim, Claudiu (online)

Today's tutor meeting agenda was to talk about our new implementations wanted by the client. We showed the auto-scheduling and email notification systems implemented. Here is what we talked about next:

- Activity diagrams for all use cases.

- Review and process report fix.

- Update the project plan and user requirements specification (URS) for the new iteration.

- Document the project first, then start coding.

- Schedule tutor meetings in advance for 13:30 on Mondays.

- Arrange a client meeting for Thursday.

- Conduct a technical peer review for week 15.

Overall, in the meeting we talked about code implementation, client requirements, the importance of documentation and personal questions
